COVERT ACCESS DOOR

PRODUCT DESCRIPTION

Trade Access CD Series covert access doors are lightweight solid-surface access doors with matching solid-surface frames designed to blend seamlessly with gypsum ceiling surfaces. The door and frame have tapered edges for joint tape and joint compound application, allowing the assembly to be textured or painted. The flange includes pre-positioned depressions for screw placement, and mounting hardware is provided by the installer to suit the wall type.

FEATURES

- Door and frame are fabricated from solid surface material.
- Tapered edges support joint tape and joint compound application.
- The flange has pre-positioned depressions for screw placement.
- The access door is lightweight and designed not to crack or shrink.
- The door and frame conform with ANSI/CPA SS-1 Performance Standard.
- The standard color is OCC11M Blanco Matte and the surface can be painted.

APPLICATION

Used to provide concealed access openings in gypsum ceiling and wall assemblies where a finished, blend-in appearance is desired.

MATERIAL

Frame: Solid surface material

Door: Solid surface material

DETAILS

STANDARD SIZES (W × H)
