METAL LATH ACCESS DOOR

PRODUCT DESCRIPTION

The ML Series metal lath access door is designed specifically for plaster construction. The door has a 3-inch-wide metal lath flange on all four sides for keying into plaster. The door and frame are fabricated from 16-gauge galvanized steel and include a concealed continuous piano hinge, screwdriver-operated latch, and white prime coat finish suitable for painting.

FEATURES

- A 3-inch-wide metal lath flange on all four sides keys the door into plaster.
- Door and frame are fabricated from 16-gauge galvanized steel.
- The door uses a concealed continuous piano hinge.
- The standard latch is screwdriver operated.
- The standard white prime coat finish is suitable for painting.

APPLICATION

Used to provide concealed access openings in plaster wall construction.

MATERIAL

Frame: 16-gauge galvanized steel

Door: 16-gauge galvanized steel

DETAILS
