SURFACE ACCESS DOOR

PRODUCT DESCRIPTION

The SF Series Surface Access Door is designed for surface installation on drywall, masonry, or thin-coat plaster. The door and frame are fabricated from 14-gauge galvanized steel and finished with a white prime coat suitable for painting. The door has rounded safety corners, a continuous piano hinge that permits a 175-degree opening, and a screwdriver-operated latch. The frame is secured to studs and anchored through pre-drilled holes in each corner without additional reinforcement.

FEATURES

- Door and frame are fabricated from 14-gauge galvanized steel.
- Door has rounded safety corners.
- Continuous piano hinge allows a 175-degree door opening.
- Standard latch is screwdriver operated.
- Frame includes pre-drilled mounting holes in each corner.
- Frame installation does not require additional reinforcement.
- White prime coat finish is suitable for painting.

APPLICATION

Used to provide surface-mounted access openings in drywall, masonry, and thin-coat plaster walls.

MATERIAL

Frame: 14-gauge galvanized steel

Door: 14-gauge galvanized steel
